No. 8

MAPS: EASTERN FRANCE, 1/50,000, Sheets, 37/12,37/13,38/12,38/13.

1. ENEMY SITUATION AT END OF PERIOD.

a. Enemy front lines - No Change.

b. Defensive Organization - Road block defended by 8 to 10 men 28 Dec 44, now defended by approximately 40 men in prepared positions extending from RJ (Q 878474 to Q 871471).

c. Units in Contact - Identification by PWs of 1st Co, 361st Repl Bn in the vic (Q 815468). See Annex "A".

2. ENEMY OPERATIONS DURING PERIOD

a. General Summary - Enemy made vigorous attempts to probe our front lines. Patrols operated in both daylight and darkness and were most active in the left sector (west) occupied by the 94th and 117 Cav Sq. There have been no reports of deep penetration within our lines by enemy patrols. Artillery and mortar was slight.

b. Operations of Component parts -

(1) Armor - Tank movement has been reported at Q 78764984; Q 78784963; Q 79405065; Q 79205065; and Q 804487. All tank movement has been after the hours of darkness. It is thought that the enemy is using armored vehicles for resupply of troops at night, thus escaping artillery observation. Other possibilities are the enemies intent to confuse our outpost or bring down artillery on his tanks in order to locate our gun positions.

(2) Artillery - Artillery and mortar fire slight with the exception of observed concentrations on front line positions and patrols. An intense mortar concentration fell vic Q 902455 at 1240A. Five(5) rounds fire on friendly patrols Q 907467, and Q 895485. These concentrations were thought to be 90mm. Artillery gun positions believed to be located Q 78764984; Q 79405065; and Q 79205065.

(3) Infantry - Appears to be a build up of troops occupying prepared front line positions. Five man patrol with mission of locating our in that sector captured vic Q 815468. Build up of strength from RJ Q 878474 to Q 871471. Enemy patrols attempted to infiltrate at the following locations: Q 789495; Q 804486; Q 800480. All repulsed by fire.

Report Received from Maj Herter, Div Arty, 011915, by phone.

Information from AOP of 500 AFA Bn:

At 1200 observed trucks towing small guns moving E from 837442; foot troops, company strength, moving SW from 830445; 4 tanks of med to large size observed moving SW and S from RJ at 836451.

At 1630 friendly P-47s bombed in vic 830454 and that was the one that caused the explosion reported earlier today. Bombs fell in the draw at 822433.

Just before 1700 this evening they observed SA fire coming from vic of BARENTHAL and from the high ground just N. There was counter SA just S of BARENTHAL in the woods at 8441, actually extending from 8441 to 8541.

At 1200, vehicles, approximately 6, observed moving S around the road bend at 878475.

Also this evening, we had a report through local FFI man (Schillersdorf) that a shepherd who had been at ROTHBACH this afternoon reported that four parachutists had been captured in the bluff immediately above ROTHBACH and apparently there was some civilian over there who had been feeding them. Further details later. Not stated who captured parachutists. He stated they had landed further S and to the E and worked their way up to the town and hid.

 Report from Maj Herter, Div Arty, 011945, by phone: m

Following information received from VI Corps Arty:

At 1800 we re-took BARENTHAL. The enemy is to the N and NW. They believe there is a possible ~~threat~~ threat from vic DAMBACH. Enemy has infiltrated in this area. He was observed generally on line 948492 to 918464. We lost an OP party at 037525. Enemy is strength of 300-400 observed at 813428. About 100 enemy moving out of the town at 905468, moving N. Also about 150 enemy moving N from NEUNHOFFEN. Generally from their reports enemy's major activity seems to be infiltration, apparently quite a heavily toll of casualties on enemy from our patrols and ambush parties.

There are two Divs facing us on our immediate front, 256th spearheading the attack. The 301 Inf Div is also up in that area, may be the follow up Div. Extending W to about center of XV Corps front are the 559th Inf, the 17 SS, the 36th Inf and 19th Inf in that order.

The code name for this attack is "10 May 1940" in commemoration of Hitler's entry into FRANCE.

REPORT BY: Capt Phillips  
FROM : TF HUDELSON  
TIME : 1710

Fwd CP at REIPERTSWILLER (Q-8037)  
REAR CP at INGWILLER (Q-8130)

The town of REIPERTSWILLER was receiving some light arty fire, approx 3 rounds ea 10 min. A small group of enemy attempted to infiltrate from SAEQMUHL (Q-794376) toward REIPERTSWILLER, were fired on and some were killed; the remainder withdrew.

Over the town of REIPERTSWILLER approx 15 of our P-47s aided by one of our AOP's were searching the area N-E-&W of the town for targets.

Two prisoners were taken N of REIPERTSWILLER while I was there. I brought them back to the PW cage at INGWILLER.

I talked with Col Hudelson, he had nothing to report except to say that he was waiting order from VI Corps for his next move.

I talked with Lt Col Myres at INGWILLER, he told me his unit had taken quite a few prisoners, among them 3 female Germans in uniform who stated they were draftsmen.

Maj Whipple had received information from liaison officers with the 275 Inf Regt that the 275 held a line from S of BARENTHAL (Q-8442) E to PHILLIPPSBOURG (Q-875425). The 313 Inf Regt, with another Inf Regt (the No he did not know) was to attack to the NE to secure a line LEMBERG (Q-739451) -- BARENTHAL (Q-8442). The attack was to jump off at 1400. It had not begun at 1500 while I was there.

On my trip back I met Capt George at INGWILLER, he was on his way to Col HUDELSON with sealed orders from VI Corps.

Telephone communications are available to rear CP at INGWILLER. There is no phone to the Fwd CP.
